

TYPE 2 CLASS E SAFETY HELMET

SERIES H2-EH SPECIFICATION SHEET

PRODUCT FEATURES:

- Type 2 Class E
- Rated for top and side impact
- Electric protection up to 20,000 Volts - VOLT FENSE™ Technology
- Our patented design creates a barrier between the outside of the helmet and the suspension reducing the electrical risk exponentially
- ABS outer shell for superior strength
- Our engineered suspension system allows you to adjust the height, circumference, or chin strap length to have a tailor-made helmet for you
- High-Low temperature rated
- Adjustable ratchet
- EPS Liner for additional protection
- Multiple attachment points (visor, face shield, earmuff, lamps, etc)

TECHNICAL DATA:

HELMET

- Material
 - Shell: Acrylonitrile Butadiene Styrene (ABS)
 - Inner Foam: Expanded Polystyrene (EPS)
- Weight: 1.25lbs
- Dimensions: 11"(l) x 9"(w) x 8"(h)
- Strap: 4 Point Attachment (adjustable)
- Size: Adjustable 52-63 cm circumference
- Vent: Non-Vented
- Slotted to fit accessories
- COO: China

SUSPENSION

- Type: Ratchet (adjustable)
- Material
 - Sweatband: PET
 - Top Pad: PET
 - Suspension Strap: Polyester Fiber
 - Chin Strap: Polyester Fiber
- Weight: 0.163lbs
- Height Adjustable: Yes
- Adjustable 52-63 cm circumference Ratchet
- COO: China

STANDARDS & COMPLIANCE:

- Type 2
- Class E
- ANSI/ISEA Z89.1-2014
- EN 12492

APPLICATIONS & CARE:

The H2 safety helmet revolutionizes safety helmets. Each feature has been engineered to maximize comfort and protection. The outer shell is made with a proprietary blend of ABS and polycarbonate giving it not only superior top and side impact protection, but also resistant to high heat, low temperatures, and scratches. The H2 Class E utilizes our patented Voltfense™ technology which creates a barrier between the outside of the helmet and the suspension reducing the electrical risk exponentially. Our engineered suspension system boost durability and adjustability, giving you precise control over a custom fit. Additionally, H2 can be easily customized with multiple accessories such as welding face shields, tinted visors, earmuffs, and more.

H2 Safety helmets may be cleaned with soap and warm water. The helmet should not be cleaned with any harsh chemicals, gas, or an abrasive cleaner. Store away from direct sunlight and chemicals. Do not store in extreme temperatures.
